

Jack Krage, C.E.T.

PROFESSIONAL EXPERIENCE:

Mr. Krage has worked in the construction industry for over thirty years. For more than twenty years he has worked specifically in the construction materials testing field. He has been at Certified Testing Services, Inc. since founding the company in 1987. As President and general manager, he directs the construction materials testing operations including initial marketing and project proposals. His extensive knowledge of all areas of construction phase testing including soils, concrete, asphalt, structural steel and auger cast piling is fundamental in assuring that our customers receive the highest quality services possible.
